

Product Owner – security cleared **Make great products that make a huge difference**

We're currently recruiting for an experienced **Product Owner** with a strong track record within the software or healthcare sectors.

Due to the nature of the end client you must already be security cleared or able to pass security clearance (we will manage the clearance process which will take around 2 weeks)

We have an exciting new opportunity for a Product Owner (PO) to join our Product Management Team focusing on patient medical record solutions. The PO will be working alongside the Vision 3 development team and our customers to understand new product requests, taking responsibility for prioritizing the team's product backlog and ensuring the delivery of our product to GP practice customers. The product and development teams are spread between our Dundee and London (Battersea) offices, however the person can work remotely and can therefore be based anywhere in the UK

About the role

- Take direction from the Product Manager based on product strategy
- Work closely with internal & external stakeholders, Solution Architect, Technical Lead and UX during the process and to fully understand the requirements
- Become the subject matter expert and prioritise the feature backlog
- Responsible for producing requirements, create user stories and documenting progress
- Provide feedback to customers/stakeholders during the feature/product lifecycle/Assurance
- Produce feature videos for updating customer/stakeholders on progress
- Work with User Assistance team to ensure they have all resources available to create product documentation.
- Hold team accountable to their commitments through the agreed Governance meetings as per the governance principles

Your skills and experience....

- Extensive Product Owner experience within software and/or healthcare sectors
- Product Owner certification or equivalent
- An understanding of Scrum/Agile process and principles
- An eagerness to learn
- Outstanding communication skills
- Excellent organisational and time management skills
- Sharp analytical and problem-solving skills
- Creative thinker with a vision

What we're offering

This is a great opportunity to work with a growing product range with new innovative solutions currently in development taking the business to the next level.

It's a friendly, supportive and focused working environment, where you'll be part of a wider UK team who take great pride in what they do and the positive impact their products and solutions have on a huge range of healthcare services across the country.

Along with a competitive salary, there's an excellent range of benefits - including matched pension scheme, health cash plan and a well-being allowance.

Other info

This is a permanent full time role.

Remote working/Home based UK – occasional travel will be required to client sites and our offices in order to carry out the duties of the role.

Salary package: £40k-45k, plus a great range of employee benefits.

If this is just the role you've been looking for, please [apply directly](#) on our recruitment portal, or email any queries to our recruitment team [here](#), thank you.
