

## UX Designers

Are you a talented **User Experience Designer** with the ability and vision to deliver market-leading experiences? If so we could have the role for you, joining our team as a **UX Designer**

### What will you be doing

You'll join our growing dedicated User Experience team where you'll be at the heart of the product; driving this forward, gaining insight into users' intentions and behaviours, and utilising this knowledge to create interface designs that are immersive, intuitive and aesthetically pleasing. Working collaboratively with the Product and Development teams, you'll also maintain strong relationships with our key stakeholders.

### Who are we looking for?

You will have prior experience of UX Design, with good understanding of the full design and development cycle from research, analysing complex user and business requirements, sketching, wire-framing and prototyping through to test and launch. You're genuinely interested in and passionate about design, persuasive in articulating designs, engaging and communicating effectively with customers and developers to deliver the best possible user experience.

- Experience in designing for cross platform solutions (Desktop, Web & Mobile)
- Proficient in Figma, Sketch, or other wire-framing tools
- Experience in carrying out user interviews, testing and analytical research
- Ability to work under own initiative, as well as being a strong collaborator

### What we offer

You'll be encouraged to use your prior UX experience, along with your natural creative flair and great communication skills, to influence and innovate on requirements and design concepts across multi-platform software applications.

You'll be joining our friendly, talented and collaborative team; we have a culture where everyone pulls together, we are really passionate about the solutions they deliver and the positive impact the work we do has on healthcare services all across the UK. Our Product and Development team are focused on building great technology that delights our customers.

There's a competitive salary along with a great range of employee benefits - including matched pension, health cash plan and a well-being allowance - plus personal development and opportunities for your career progression longer term.

This is a permanent, full time role (35hrs/week, Mon-Fri)

UK based, flexible on location; working from home OR hybrid home and office (Dundee)

Salary up to £30-40k DOE + benefits
